

# IFB299 – Application Design and Development

## Assessment Breakdown

Item	Due	Weight	Team or Individual
<b>Project</b>		<b>50%</b>	
Story Cards & Plans	By the start of Workshop 5	10	Team
Release 1	By the start of Workshop 9	10	Team
Release 2	By the start of Workshop 13	10	Team
Individual Portfolio 1	By the start of Workshop 9	10	Individual
Individual Portfolio 2	By the start of Workshop 13	10	Individual
<b>Development Activities</b>		<b>30%</b>	
Reflective Journal 1	By the start of Workshop 8	10	Individual
Reflective Journal 2	By the start of Workshop 12	10	Individual
Tutor/Peer Observations	By the start of Workshop 13	10	Individual
<b>Peer Review of Client</b>		<b>20%</b>	
Peer Review 1	Workshop 7	10	Team
Peer Review 2	Workshop 11	10	Team

## **Project (50%)**

**Story Cards & Plans** – To be submitted as a document in a branch of your Git repository and available to your tutor. (See the week 3 lecture for details of this document.)

**Release 1** – To be submitted in a branch of your Git repository and available to your tutor.

**Release 2** – To be submitted in a branch of your Git repository and available to your tutor.

**Individual Portfolio 1** – A branch in a personal Git repository of contributions to the team project by each individual student.

**Individual Portfolio 2** – A branch in a personal Git repository of contributions to the team project by each individual student.

## **Development Activities (30%)**

**Reflective Journal 1** – To be regularly added to the ***Reflective Journal 1*** link on Blackboard (IFB299 Blackboard site → Assessment → Development Activities) by each individual student.

**Reflective Journal 2** – To be regularly added to the ***Reflective Journal 2*** link on Blackboard (IFB299 Blackboard site → Assessment → Development Activities) by each individual student.

**Tutor and Peer Assessments** – Each member of a team will perform a peer assessment of all the other members of the team. Tutors will also perform an assessment of participation by each student in the team, based on workshop observations.

## **Peer Review (20%)**

**Peer Review 1** – Client teams will perform a peer assessment of their development team's product prior to each release. Observations of the client team should be regularly recorded in the Team Blog.

**Peer Review 2** – Client teams will perform a peer assessment of their development team's product prior to each release. Observations of the client team should be regularly recorded in the Team Blog.
